# Mehmet Akif Elem

Nicosia, Cyprus | akif.elem@metu.edu.tr | +90 533 877 11 04| linkedin.com/makifelem

## Education

**Middle East Technical University, Northern Cyprus Campus**   **2020 - Present**

- Bachelor of Arts, Major: *Computer Engineering Program*   **Northern Cyprus**
  ***Honors:*** High Honor (2022-2023)   CGPA: 2.5

## Projects

**SellACar Kıbrıs – Android Car Marketplace APP**   **Spring - 2024**

- Developed an Android application allowing users to list and browse second-hand cars.
- I independently built both the frontend and backend, aiming to launch it publicly and address the lack of efficient second-hand car platforms in Northern Cyprus.
- This project was recognized by Prof. Dr. Atıl Samancıoğlu and featured in the Student Success Showcase.
- Technologies used include Kotlin, Figma, Firebase, and Android Studio.
- GitHub: github.com/AidenLM/SellACarApp

**AI-Powered Disaster Relief Assistant (AI Jam Event Project)**   **Spring -2025**

- Developed a web-based disaster relief coordination system as part of a team project.
- The platform uses AI to match aid supply with regional needs, optimizing logistics and resource allocation during crises.
- Technologies used include Python, Flask, JavaScript, CSS, and Google Gemini AI.
- GitHub: github.com/AidenLM/deprem-yardim-asistan-

## Experince

**Google AI Academy Ai Developer Trainee**   **11/2024 – 06/2025**
   **(Remote)**

- Completed an 8-month intensive training program at Google Yapay Zeka Akademisi.
- Gained hands-on experience in advanced statistics (in collaboration with IBM), LLM, and machine learning projects while integrating tools like LangChain into real-world AI solutions.

## Certificates

**Udemy,** Android Mobile Application Course: Kotlin.   **10/2024**

**IBM,** Exploratory Data Analysis for Machine Learning   **02/2025**

## Skills

- Programming Languages & Tools: Kotlin, Java, Python, JavaScript, CSS, Flask, FastAPI, Figma
- Technologies & Concepts: Machine Learning (ML), RAG, Large Language Models (LLM), Google Gemini AI, Android Studio, Firebase, SQLite, Oracle
- Others: Git, ER Modeling, REST APIs, UI/UX fundamentals
